

Cosmopedia International Inc. has partnered with MedChoice™ Financial so you may offer fast, convenient patient financing for all cosmetic procedures to your USA patients. \* (Agreements are in progress for residents outside of the USA).

### **Why MedChoice™?**

The biggest difference between MedChoice™ and other patient financing companies is the high level of care and service every customer receives from us. MedChoice™ and our team of industry professionals are here to serve you. Our highly trained customer service staff is here to guide you and your patients through each step of the process and answer any questions to make your experience as smooth as possible. MedChoice™ was founded with the commitment to provide instant credit for patients seeking self-improvement. We understand that your time is valuable and that's why we have specifically designed the program with you in mind – the MedChoice™ card your patients and their families can use again and again without reapplying.

#### **Patient Benefits:**

- Instant credit approval
- Simple application
- Low monthly payments
- Revolving credit that can be used again and again
- Transferrable to any professional for Plastic Surgery, Cosmetic Dentistry, Dermatology, Bariatrics, Hair Transplantation and more
- Options such as deferred payment, and no interest promotions
- Total personal privacy
- No prepayment penalties
- Fast and easy

You would have your patients fill out the simple application form, and within minutes your patients could be on their way to making their positive lifestyle change a reality\*.

### **It's All about Choices in Life**

We all make choices about our lives on a daily basis; we know what we want and like to choose our own paths. With the MedChoice™ Card, patients are making the decision to leave other credit sources separate and intact for family purchases, emergencies and other obligations. We create a separate, private account that is designed exclusively for their current and future use.

### **Total Personal Privacy**

When patients choose the MedChoice™ Card they are choosing complete personal privacy. We understand that physical wellness is a very private matter between you and your patient. This will be your patient's own private account; who can then choose which friends or family they wish to know about the procedure or the cost.

### **Low Monthly Payments**

We know that financial considerations are one of the key elements that may hold many people back from the new image they have always dreamed of. That is why we have designed this program to have low monthly payments. The MedChoice™ Card gives patients all the options they need, while fitting into their monthly budget.

### **Committed to Serving You**

MedChoice™ and its team of industry professionals are here to serve you and your patients. Our highly trained customer service staff is there to guide you through each step in the process and make your experience as smooth as possible.

### **A Lifetime of Choices**

Unlike closed-end loan options, the MedChoice™ Card is a revolving credit card account that can be reused over and over again, as long as credit is available on the account. The account can be used at any participating provider practices throughout the country that specialize in:

*Plastic Surgery, Cosmetic Dentistry, Dermatology, Bariatrics  
Hair Transplantation and much more...*

As many patients decide to have different types of cosmetic procedures done, you can refer your patient to others and they can pay with their MedChoice™ Card there too.
